

UNIVERSIDAD DE ALMERÍA

LIFE PureAgroH2O

We are pleased to invite you to participate in the Webinar on “Sustainable Water Management in the Agro-food Industry: Current Problems and Future Challenges”, organized within the framework of the European project LIFE PureAgroH2O (www.lifepureagroh2o.com) that will take place online on

Thursday, February 4, 2021

from 9:15 a.m. to 1:30 p.m.

The event will address the current challenges of the agro-food industry in its transition towards a Circular Economy model that promotes efficient, sustainable and environmentally friendly use of water. Experts will participate presenting a variety of strategies for water management with direct application in the industry, trends in R&D for water use and regeneration, as well as financing opportunities through innovation projects. A round table discussion will also be held for the exchange of ideas among the participants.

Registration is free at the following link:

REGISTRATIONS

Please remember that only registered participants will be able to access the sessions.

The event will take place in Spanish language.

Certificates of attendance will be issued to participants who request them.
